## **FAIRPOINT EXPANDS HIGH-SPEED INTERNET SERVICE IN NORTH CONCORD VERMONT**

**SOUTH BURLINGTON, Vt. (November 5, 2009)** – More Vermonters can quickly e-mail photos, download music and surf the Internet now that FairPoint Communications has expanded access to high-speed Internet service in the Concord Exchange. The service was recently expanded to reach about 80 customers in North Concord.

In 2008, FairPoint increased access to high-speed Internet service from 65 to 76 percent of its Vermont lines exceeding its commitment to the state for 75 percent broadband availability.

“We understand the importance of access to broadband to the residents and businesses in the state and this demonstrates our commitment to expanding broadband availability in Vermont,” said Jeff Allen, executive vice president of northern New England operations for FairPoint. “With our extensive high-speed Internet expansion efforts in the past year, now is a good time for customers to check to see if high-speed Internet service is available in their neighborhood.”

Qualified customers who sign up for an annual plan can choose FairPoint High-Speed Internet for \$33.99 for download speeds up to 3 Mbps. All plans include a dedicated connection with always-on access, a 30-day money back guarantee, free router, free FairPoint Security Suite, 9 email accounts, and 10MB (Megabytes) of personal web space. FairPoint High-Speed Internet features live support 24 hours a day, 7 days a week. Other speeds are available at other promotional rates.

For additional information about FairPoint High-Speed Internet prices and bundled plans, residential consumers can call **1-866-984-2001** or visit [www.FairPoint.com](http://www.FairPoint.com).
