Conference Call/Meeting	N/A	

Dear FairPoint Communications Wholesale Customer:

Below are planned dates for the next phase of FairPoint NNE's SS7 network rearrangement plans. This phase consists of migrating SS7 A-Links to end offices and tandems connected to the STP's in Vermont and Maine over to the New Hampshire locations. There should not be any loss of signaling during these activities. Companies whose switches are listed below will be contacted and provided with conference bridge details to call into and monitor the activities. It is suggested each of these companies send an email with their contact information to [SS7@fairpoint.com](mailto:ss7@fairpoint.com) as soon as possible.

White River STP to Manchester STP 10/19/09
Rutland STP to Concord STP 10/21/09

Portland STP to Manchester STP 11/02/09
Lewiston STP to Concord STP 11/04/09

The facility migrations will be hot cuts on the dates indicated. While the links are being migrated from White River (and then Portland) the A-Links to the "mate" STP (Rutland and Lewiston) will remain in service.

On each respective date, the SS7 A-Links will be disconnected from the STP indicated and re-terminated to the Manchester or Concord STP.

Following are the FairPoint, Independent and CLEC offices whose A-Links will be re-terminated to the Manchester / Concord STP's:

COMPANY	CLLI CODE	POINT CODE	DATE
