This notice is being sent to advise *FairPoint Wholesale Customers of a change to the TCAP Services Product in ME, NH and VT.*

- **Description of Changes:**

Overview

As a result of a strategic merger entered into on January 15, 2007, FairPoint Communications, Inc. is acquiring the local exchange business of Verizon Communications, Inc. in the states of Maine, New Hampshire, and Vermont. The merger will be effective March 31, 2008 with a transition period through September, 2008.

During this transition period, Verizon will continue to offer TCAP services to you under your current arrangements. If you are currently subscribing to any of the following TCAP services from Verizon you will need to migrate these services to FairPoint before the end of the transition period:

LIDB, CNAM, Toll-Free, LNP, AIN, ISVM, and CLASS

What do I need to do to migrate my TCAP services?

1. Complete and return the attached TCAP Services Questionnaire to TCAPServices@fairpoint.com no later than April 25, 2008. You may also find this questionnaire form on line at www.fairpoint.com/wholesale
2. Once your questionnaire form is returned FairPoint will review your requirements and schedule a time with you to make changes in your switch translations to reflect the FairPoint point codes for each of the TCAP services and test the new routing to ensure uninterrupted service. These changes will be scheduled during industry accepted standard maintenance windows. It is anticipated this will be completed by end of September 2008.

What will happen after the end of the transition period?

After the transition period, Verizon will no longer provide TCAP services in Maine, New Hampshire, or Vermont. Wholesale customers that have not migrated by this date will no longer have access to TCAP services from Verizon. To ensure continuity of service you must work with FairPoint to migrate your TCAP services.

What if Verizon is not my provider for TCAP services?

If you are currently receiving TCAP services from a provider other than Verizon you need to identify your provider for each service in the attached questionnaire so FairPoint can confirm the routing is in place and ensure uninterrupted service. In the unlikely event changes are needed, FairPoint will contact you.

Who do I contact for more information?

Attend the Conference Call: FairPoint will host a conference call to discuss additional details regarding the changes. The call is scheduled for:

April 9, 2008 1PM to 2PM EDT

Call in Bridge info: 800 240 3895 Pass Code 667127#

E-mail: Send your questions to: TCAPServices@fairpoint.com
